LUBA 2 AWD Series

Perimeter Wire Free Robot Lawn Mower

A Trusted Choice for Large or Uneven Lawn

LUBA

About Mammotion

Mammotion is dedicated to cultivating an intelligent and high-quality eco-friendly outdoor lifestyle through innovative robotics solutions. Our mission commences with revolutionizing robot lawn mowers for both professionals and consumers, paving the way for a more sustainable and efficient outdoor experience.

About LUBA

As the world's only Perimeter Wire Free Robot Lawn Mower able to deliver long-term, stable, and flawless performance on large or complex lawns. Through a one-time setup via app, LUBA offers customized cutting heights, patterns, and schedules for multi-zone lawns. It utilizes proprietary algorithms to calculate the optimal route, adjusting tasks in response to real-time weather changes, also featuring auto-recharging, anti-theft and yard monitoring. It truly achieves labor-free, 24/7 lawn maintenance

When Others **Get Stuck** LUBA Prevails

Steep Slopes

Potholes

Rough Terrain

Tall and Thick Grass

All-Wheel-Drive System

Featuring four powerful in-hub motors, LUBA can effortlessly handle 80% slope and traverse the most demanding terrain without getting stuck.

Adaptive Suspension Arm

The adaptive suspension arm system, combined with terrain sway, ensures LUBA's agile traversal of rugged terrain.

Omini-Wheel

The omni-wheels ensure zero-turn agility without damaging the lawn, and the gap between the small wheels provides excellent traction, ensuring LUBA operates smoothly on steep slopes without slipping.

No Corner Missed with Fusion-mapping System

Powerful lithium battery

LUBA's lithium battery has sufficient capacity to allow for 180 minutes of continuous operation and the ability to mow up to 500 square meters (0.13 acres) per hour. When the battery level is low, LUBA autonomously returns to the charging dock and resumes the interrupted mowing session.

Re-Cutting at Stoppage Point

Experience uninterrupted mowing with LUBA. After automatically recharging, LUBA seamlessly resumes mowing where it last left off, ensuring a consistently well-maintained lawn.

Unleash Lawn Artistry with 3D Lawn Printing Technology

- In the Mammotion APP, you can choose different mowing patterns and create custom designs.
- LUBA uses advanced algorithms to adjust the mowing route, cutting height and angle, ensuring precise mowing of desired lawn patterns.

* FOTA (Firmware Over-The-Air) updates regularly add new patterns, giving users a wide range of options and the latest designs.

Experience **Hassle-free** Lawn Care Even When You're on Holiday

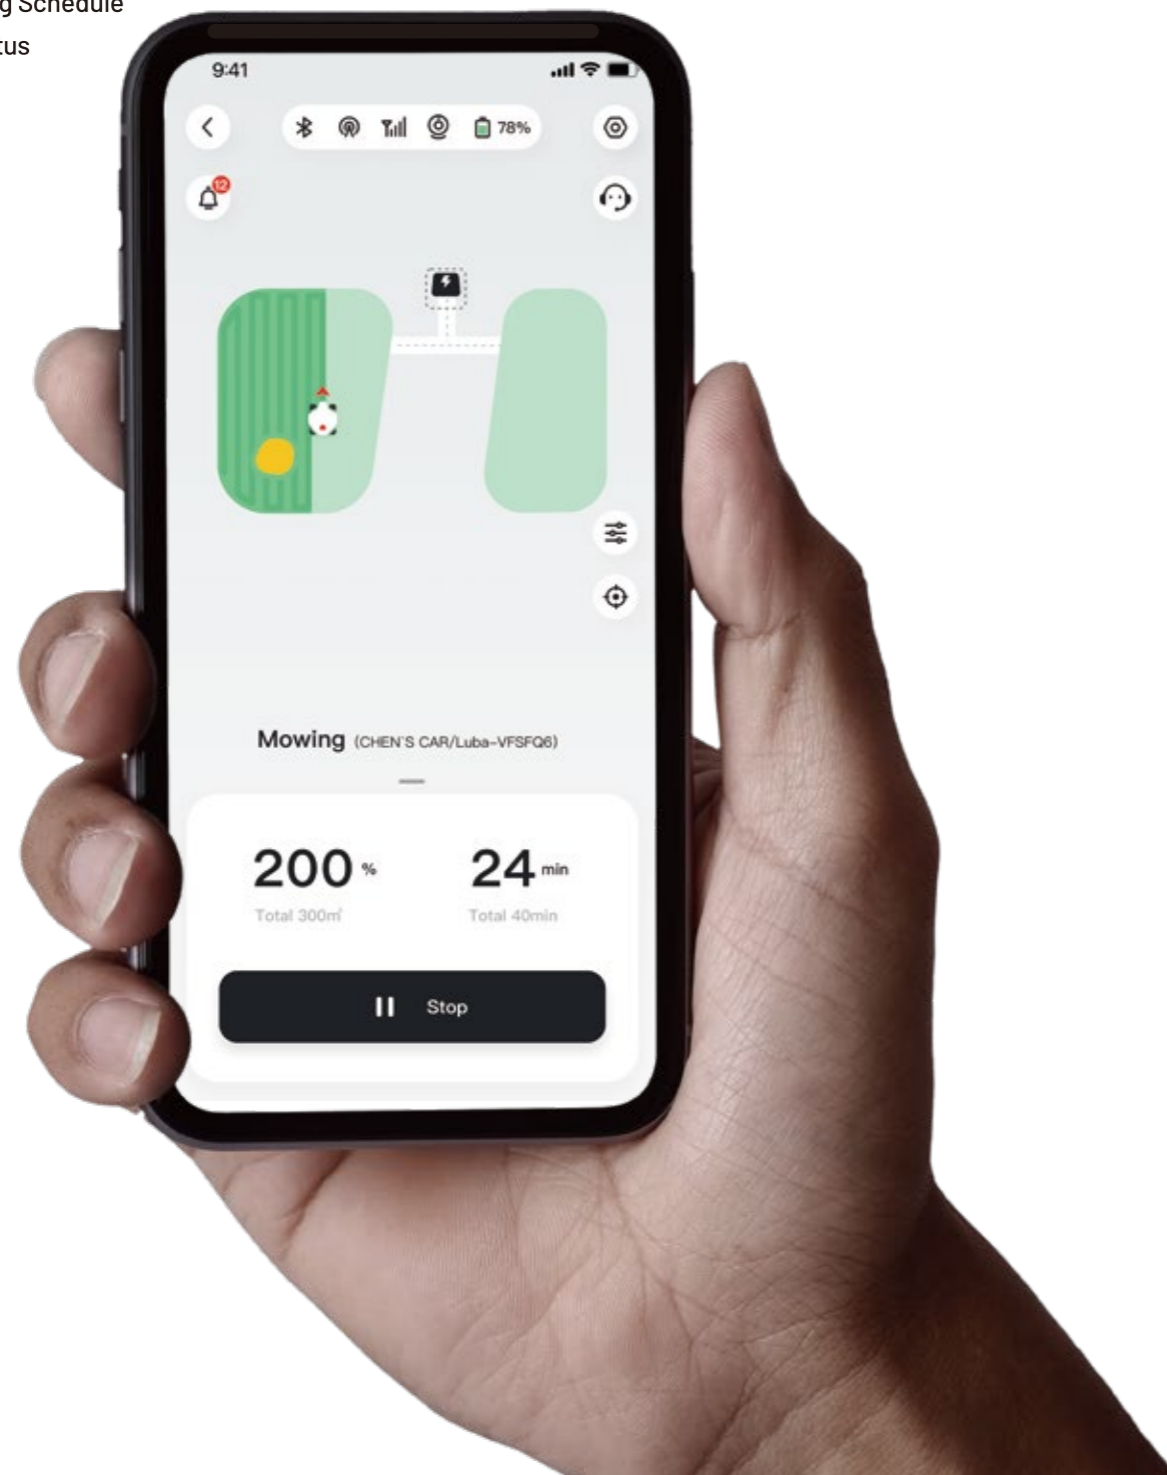

▶ Real-time Yard Monitoring

Enable the yard monitoring feature in the visual module (defaulted to off) to access real-time yard status, playback recordings, and manage your yard smartly through the Mammotion APP.

▶ Set Cutting Height & Mowing Modes

▶ Set/Adjust Mowing Schedule

▶ Check Mower Status

Intelligent Security and Tracking Features

App Notification

Receive APP notification if LUBA exceeds designated mowing zones.

4G & GPS Tracking

Track LUBA's location in real-time in the Mammotion APP using 4G and GPS tracking.

Ownership Authentication

The first user to activate the device becomes the rightful owner and can grant access to family members. LUBA supports a "lost" feature, preventing unauthorized use.

Sentry Mode

Activate sentry mode when LUBA returns to the charging station. Receive alerts and view captured photos if someone approaches within 3 meters, customizable in the Mammotion APP.

AirTag Compatibility

Reserve a spot on LUBA for an AirTag. Add an optional AirTag to secure your LUBA for added peace of mind.

*Note: Airtag is not included and must be purchased separately.

Take a Step towards Sustainability

100% Solar-powered RTK

RTK is powered by the robust lithium battery that can be charged using solar energy, providing an extended 14-day battery life. This ensures ample power reserves, even during cloudy or rainy seasons.

Eco-friendly

It operates solely on solar power, resulting in zero emissions and promoting eco-friendliness.

Convenient

With no need for extended power cables, it offers hassle-free installation and operation.

Cost-effective

It reduces energy costs, making it an economical choice.

Flexible

The RTK can be installed in any outdoor open area without the need to consider power sources.

Whisper-Quiet Noise Level

During operation, LUBA maintains a noise level consistently below 60dB, ensuring no noise pollution is generated.

Built to Last

Waterproof Performance

LUBA machine is IPX6 waterproof rated, while the RTK reference station boasts an IPX7 waterproof rating. This ensures exceptional durability, even in rainy and humid areas.

Rain Detection

LUBA automatically adjusts its mowing schedule based on real-time weather conditions, thanks to its rain sensor and the seamless integration of the Mammotion app with local weather forecasts.

FOTA Updates

The Mammotion software continuously introduces new features, enhancing functionalities, and delivers more seamless user experience, which can be conveniently downloaded anytime using FOTA (Firmware-Over-The-Air) technology.
